

Facilities

A program's physical environment supports the quality and quantity of the services it provides. Browse facilities resources that help programs create environments that are conducive to learning. Explore resources about adhering to safety guidelines for designing, constructing, and maintaining healthy classrooms and playgrounds. Also, find materials that outline the procedures for applying for funds to purchase, construct, or make major renovations to facilities that operate Head Start programs. This includes the measures that must be taken to protect the federal interest in such facilities.
