

Perceptual, Motor and Physical Development

Children will develop control of fine and gross motor skills for the purpose of exploration and manipulation, as they engage in age appropriate activities and develop healthy habits.

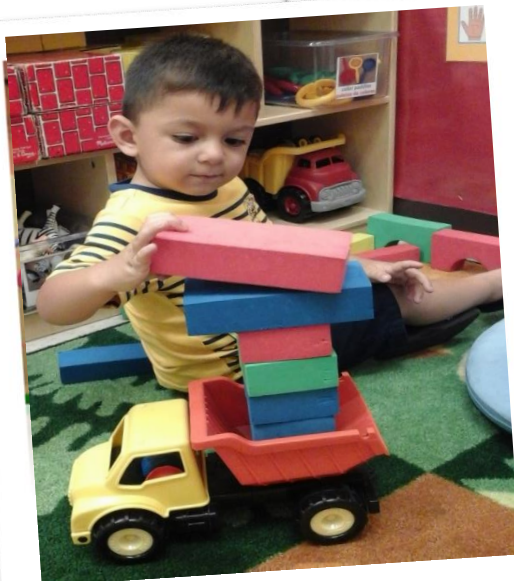

Approaches to Learning

Children will demonstrate interest, curiosity, persistence and eagerness to learn through brain-based, play-based Early Head Start environment utilizing the Frogstreet curriculum and other resources.

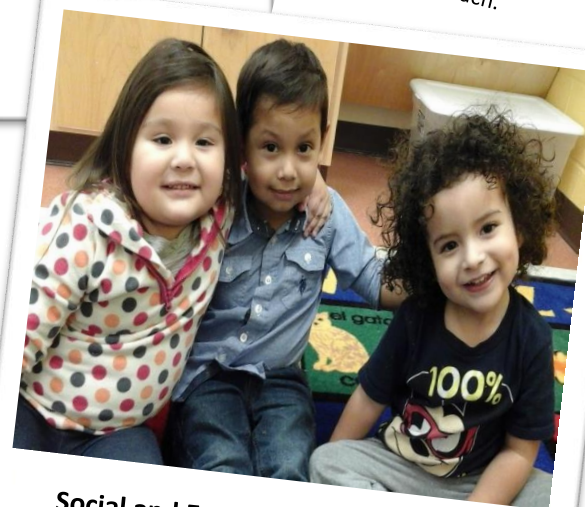

Language and Communication/Literacy

Children will demonstrate receptive, expressive oral language abilities, emergent literacy in English and Spanish through a Simultaneous Language Approach.

Cognition

Children will use their senses to develop strategies to problem-solving and make connections to previous experiences.

Social and Emotional Development

Children will develop healthy relationships and engage in positive interactions with others, as they develop a sense of self.
